

The Wainwright Star

VOLUME 16—NO. 35

WAINWRIGHT, ALBERTA

WEDNESDAY, JULY 18

C. R. MORRIS

MUNICIPAL HOSPITAL SCHEME IS NOW WELL UNDER WAY

Some time ago the board of trade took up the question of getting the necessary petitions to apply for the formation of a hospital district to take in practically all the Wainwright constituency. The first of getting a municipal hospital in this area is not a new one and energetic work was done on the project last year, under the old act. All the petitions were circulated and signed, but the scheme was not carried out. This year the department passed a new act and the work had to be done all over again. However, by a lot of hard work by the members of the board, the territory from the boundary to the west end of the constituency was covered and the required number of signatures to the petitions were secured. The territory as outlined was then submitted to the minister, and we understand has been approved.

The territory to be included in the proposed Wainwright Hospital area is as follows:

The town of Wainwright.
Municipal District No. 301
Municipal District No. 302
Municipal District No. 401
Municipal District No. 402
Municipal District No. 423
Municipal District No. 424
Municipal District No. 454
Tp. 41, in Ranges 4 and 5.
Tp. 42, in Ranges 4 and 5.
Tp. 43, in Ranges 4, 5 & 6.
All that portion of Tp. 45, in Ranges 2, 3 & 4 south of the river.
All that portion of Tp. 47, Ranges 4, 5 & 6, south of the river.
Township 44, Range 7.
Township 45, Ranges 7, 8 & 9.
Township 46, Range 10.
Township 47, Range 10.
Township 48, Range 10.

This territory does not include the villages of Irma, Edgerton or Chauvin, who were adverse to the proposal. They are not declared, however, from coming into the district; as they can by petition to the minister, be included in the district after the area has been settled upon and the hospital board elected.

The act provides for a board comprising as many members as there are municipal districts or portions thereof. So far the following men have been appointed as members of the hospital board:

Town of Wainwright—H. V. Fieldhouse.

Municipality No. 422—Frank Ballby.
Municipality No. 423—J. G. Clark.

Nearly all the board members have been appointed but we were unable to set the names.

Some of the important points that will be of interest to every one are:

The minister has the power to add territory. Many established hospital districts provided that the ratepayers decide by vote the matter.

The hospital board, which will consist of ten members in this case, upon organization shall prepare a scheme which shall provide for:

The purchase of a site and the erection of a suitable building and the furnishing and equipping of the same as a hospital, including an operating room with the necessary appliances.

Or arrangements may be made at the discretion of the board for the

Purchase or renting of any existing building or the making of arrangements with any other hospital for providing suitable hospital facilities for the residents of the district.

The location of the proposed hospital.

The schedule of fees, if any, to be charged for the services of the hospital.

An estimate of the capital expenditure and the plans for borrowing the same by the issuing of debentures.

A plan for the repayment of such capital expenditure.

A plan for the division of the proposed capital and maintenance expenditure among the various included areas in the hospital district.

During the deliberations of the board the minister of public health is to be consulted as to plans, maps and specifications, as all hospitals must be built on plans approved by the department of health.

When all the plans and site is ready and the capital expenditure apportioned to the various areas, the scheme is approved by the minister and advertised in the newspapers circulating through the district. Within fourteen days from the date of the advertisement the minister or twenty-five ratepayers from the district may request that the scheme be referred to the Public Utilities commission, who will have the power to re-apportion the proposed expenditure amongst the included areas.

Any twenty-five ratepayers within the included area may, within fourteen days after the publication of the advertisement mentioned, appeal to the Public Utilities commission with regard to the situation of the hospital.

If after fourteen days no opposition is recorded against the plans of the board, the minister shall approve of the scheme, and shall fix a date for the taking of a poll for the purpose of ratification of the scheme, the date for the taking of the vote shall be within one month from the day that the plan is approved by the minister.

For raising of funds to pay the hospital cost of construction and maintenance, the act provides for a maximum rate of 3 mills on the dollar for the assessed value of the property or 3 cents per acre.

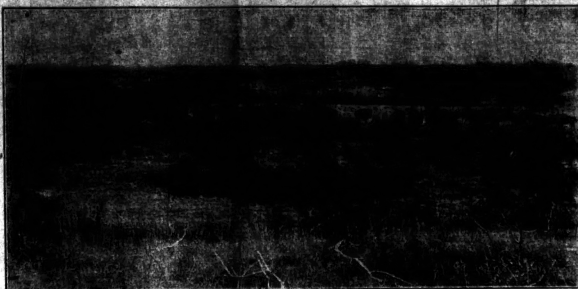

Upon ratification of the scheme the hospital board will hold a minimum number of meetings per year of six, and a maximum number of twelve, and each member will be allowed 20 cents per mile for travelling expenses and \$4 per day for each day away from their homes.

The question has arisen in the minds of many of the ratepayers in the territory outlined as to the advisability of including such a large area, instead of dividing it into several smaller ones. The two classes of hospitals that are being built by

Winnipeg, July 5—On and after Monday, July 15, a hair cut in Winnipeg will cost fifty cents and a shave twenty-five cents.

SCENE IN THE BUFFALO PARK, BORDERING ON WAINWRIGHT TO THE EAST

1200 VISITORS TO BUFFALO PARK DURING JUNE

Now is the time for the tourist to be thinking of the route to be chosen to see the best and greatest sights. Wainwright lays claim to having one of the greatest wonders in the world today for the sightseer. Lying only a few miles from the town is the largest park in Canada, and got only that but it contains the largest number of wild animals gathered together. The Buffalo park at present contains somewhere around three thousand five hundred buffalo—the real wild buffalo that used to roam the plains of western Canada in countless number, but the advance of civilization has wiped them off the face of the country all except those contained in this park and some at Banff. Nowhere

can the tourist gaze upon such a large herd as have been gathered together here, and if one wants the sensation that the early pioneers experienced in facing a buffalo herd, he can get it by visiting this park.

The park authorities have divided the area into several parts and there is a smaller one situated near the Wainwright entrance for the benefit of visitors. In it are considerable number of each variety of animal that is domiciled in the whole reserve. One may view at close quarters in this small park, elk, moose, buffalo and the hybrid cattalo.

Superintendent Smith reports that so far this spring there have been 600 young buffalo born. The increase

in the other animals has not been given out as yet.

In June, alone, 1200 visitors have registered at the Wainwright end of the park, and an average of six attend every day. This does not include the large number of visitors to enter from the other entrance, which in all probability amount to about the same number.

Nobody who has the opportunity should fail to take advantage of seeing the "remnant of the last west" as the sight will repay you for the time and money spent in coming here. The town provides good accommodation for visitors in their up-to-date hotels and auto lodges are always prepared for any trips to the park.

WAINWRIGHT BRANCH RED CROSS IS NOW ORGANIZED

A public meeting was held in the Elite Theatre on Friday evening, June 28, at which it was decided to organize a Red Cross branch in Wainwright. A splendid address was given by Mrs. Towns, of Coronation, and it is to be regretted that more people were not there to hear it. She reviewed the history of the Red Cross from the time of its foundation and clearly explained the aims and objects of the Canadian Red Cross Society. This is briefly as follows:

The Canadian Red Cross Society was first established in the year 1866 and acted throughout the Boer war. It was subsequently incorporated in the year 1909 by an act of parliament. The British Red Cross society acting under a charter given by His Majesty King Edward VII, is the parent society and represents the British nation under the International Treaties of Geneva. The Canadian Red Cross society is in affiliation with it. The principle aims and objects of the society are to collect funds and material and to provide as-

sistance to the sick and wounded in time of war supplementary to that furnished by the official naval and medical departments.

The purpose of organizing a branch at Wainwright is two-fold. First, it stimulates interest in the work when the citizens realize that it is a local affair and all credit will be given to Wainwright for every cent of money and every article of work sent from here. Wainwright will have a supply depot and be a distributing centre of Red Cross supplies so that in future all Red Cross circles in the vicinity of Wainwright and surrounding country may get supplies here instead of from Edmonton or Calgary as they have done heretofore.

Secondly, the Calgary and Edmonton branches have been over-worked and by taking some of these auxiliary off their hands and thus dividing up the work every branch can accomplish more.

All supplies will come from the sup-

ply depot in Calgary in large quantities and be handled here by a supply committee, which at present consists of Mrs. Lawell, Mrs. Mathers, and Mrs. Scofield.

The following are the officers of the Wainwright branch of the Canadian Red Cross Society.

President, Mrs. Adeine Lawell.
1st vice president, Mrs. Turner.
2nd vice president, Mrs. S. R. Bowman.

Secretary, Mrs. S. D. Mills.
Treasurer, Mrs. W. E. Washburn.

The executive committee consists of H. V. Pawling, chairman.
Mr. W. E. Washburn, Mr. E. L. Cork, Rev. Wilson and Dr. Little, together with the above named officers.

This branch will gladly enroll life members, members and associates and also will welcome workers to the rooms on Friday afternoons at 4 p.m. at Mr. Cork's store. If a change of place of supplies is made it will be published later.

The members must subscribe and pay annually the sum of two dollars to the funds of the society.

Life members contribute \$25. Associates subscribe and pay annually the sum of one dollar.

But this hinders no one from taking work and helping along the work of the society in any way. The next business meeting will be held in the council chambers the first Friday in August at 3 p.m.

MEADOW CREAMERY HAS A RECORD OUTPUT

"Last Saturday we made the biggest run of butter this year," said Mr. Hozeh, to the "Star." "We turned out 1400 pounds, and when it is considered that at the same date last year we were only making somewhere around 200 pounds per week, it certainly shows progress."

This tells the story of the growth on an industry in this town which was established last spring, in a few words. The Meadow Creamery was organized last year and was formally opened for business on May 10th. The first week only about a dozen cans of cream were received and only 120 pounds of butter made. The number of patrons steadily increased and a larger amount of cream was received until at present there are around 180 regular patrons and the creamery is producing an average of 400 pounds of butter per week. Last Saturday was a big day, 1400 pounds of butter being made.

The present market for good butter is such that there is no danger of the supply exceeding the demand. Most of the butter made at the Meadow Creamery finds its way to England, and some is shipped to the coast cities and to Edmonton. The high quality of the product of the creamery makes this butter in great demand.

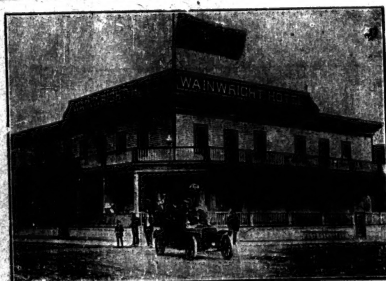

Of the source of supply of cream, we are informed that most of it comes from the farmers in the immediate vicinity of Wainwright, with a little shipped in from some of the points to the east of here. It is a good sign to see the farmers take up the dairy business and there should be in the near future two or three times the amount of cream available that there is at present. This year should bring home very heavily to the men on the farms that it is not wise to place all your eggs in one basket as is the case if they go in strictly for the raising of wheat. The dairy business will always be good in this country, and the demand for butter will be good for many years to come.

The only question that is liable to bother the dairyman is the one of feed and we believe the country ought to be able to produce cultivated hay in sufficient quantities to allow each farmer to keep a few dairy cows.

The Meadow Creamery is a factor in the business life of the town and in a year being in nearly \$100,000 to the district to circulate among the farmers. They are at present distributing nearly \$5000 per week for cream.

The creamery plant is modern in every respect. A Pasteurizing equipment is installed, together with all the necessary cream and milk testing apparatus. At present they have a 600 pound churn.

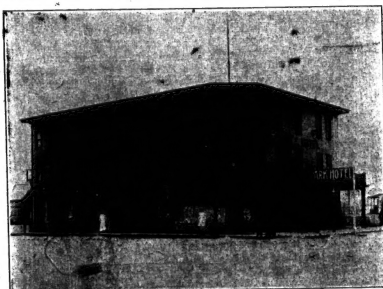

The Meadow Creamery is a good industry for Wainwright and we venture to predict that the business will soon increase to such an extent that a larger building will be required and the country around here will be noted for its mixed farming and fine dairy plants.

UP-TO-DATE WAINWRIGHT HOTEL

EVERYBODY WILL JOIN THE BIG "GET ACQUAINTED" JOURNEY

The Board of Trade in conjunction with the Wainwright Auto Club will inaugurate an entirely new thing for the people of Wainwright next Wednesday, July 17, when they will organize a "Get Acquainted trip." All owners of cars are asked to join in the movement and donate the use of their cars for that afternoon. The purpose of the trip is to visit the farmers along a route, which will be laid out later, inspect the roads, hear the opinions of the farmers relating to question that affect them as well as the townspeople, and in fact "get acquainted." This spring a good many new settlers have settled in this district and it should be the aim of every business man here to take an interest in the rural community that surrounds the town, and let them know that there should be no dividing line between urban and suburban activities. The development of the country means the progress of the town. A contented, well satisfied community of prosperous farmers is the very best advertisement that could be had. This trip is planned for the purpose of the business men looking into the problems of the farmer and use his influence to try and solve them. The cars will probably leave from town at 10:00 a.m. and return at 2:00 p.m. All those who can come and donate their cars for that day please leave your name with any of the following persons: Mr. Turner, Park Hotel, J. L. Gerow, The Star office or Mr. O. J. Elder. Come one and come all and make it a big success.

WEDNESDAY, JULY 10

THE "GET-ACQUAINTED" TRIP

The new and novel method of bringing town and country together—that has been started by the Board of Trade is a good one. The business life of our town is entirely dependent upon the rural community, and a closer understanding between the two lines of endeavor should be cultivated. New settlers are constantly coming in the country and the interest shown in them by the town people will surely be appreciated.

The purpose of the trip is two-fold. First it is desired to form a closer relationship between the farmer and cultivate his friendship and take an interest in his welfare. Secondly, it is the desire of the Board to assist the farmers in furthering the improvement of roads and to investigate the placing of bridges, etc. We want all roads to lead to Wainwright, and not only use the name "roads" but to have them "good roads." It is a serious matter with our many who have to haul any great distance to have bad roads and hard grades.

The Wainwright Auto club are working in conjunction with the Board of Trade and we hope that their combined effort will have the result in getting the good roads that are needed.

THE HOSPITAL SCHEME

We notice in the "Irma Times" that the people of that district are much aggrieved over the allotment of the territory in the proposed Wainwright Hospital district. Their argument evidently rested on the supposition that the department of public health should establish small cottage hospitals in Wainwright, Irma, Edgerton and Chauvin.

From what we understand the department would not establish that many hospitals in this district as the territory from which to draw revenue would be too small for each one. Irma has proposed for her territory all that land lying west up to within six miles of Wainwright. Edgerton would probably feel like appropriating for her hospital land to within the same distance. Wainwright would have to draw her finances from territory either straight up to the blue sky, or down to the centre of the earth, or in other words be left out in the cold. This being the largest town in the district as well as being in the centre of the riding, it would hardly seem that this is a fair way to look at the matter.

Even if hospitals were established at Irma, and Edgerton, the Department of Public Health, in all probability would not sanction the erection of a hospital any larger than nine or ten beds in each place, the combined capacity of which would not be any more than twenty beds at the largest estimate.

On the other hand, the single hospital here, with a capacity of twenty-five or more beds would give greater accommodation, better service and have a lower cost of maintenance.

It is not the desire of the people of this town to exclude the villages along this line from the benefits to be derived from the hospital, as they will have the opportunity later of coming in by petition. The greatest need to the greatest number is the aim in establishing these hospitals and this can only be accomplished by the erection of a large modern, fully equipped institution. It is for this end that

UNION BANK OF CANADA

A Joint Account is a Great Convenience

for family funds. It may be opened with the Union Bank of Canada in the names of two persons, either of whom can make deposits or withdraw money when in town or when passing the bank. It is especially convenient if the husband is frequently away on trips, as it enables the wife to procure funds for expenses on her own signature—alone.

G. C. SIDDALL, MANAGER
WAINWRIGHT BRANCH

we ask the support of all ratepayers in the Wainwright riding.

NOTE AND COMMENT
Hereafter discharged men will be given \$35 with which to outfit themselves again in civilian clothing instead of \$8, which has been the allowance in the past. And even at the increased rate the boys will not be able to afford anything better than a hand-me-down—*Calgary Herald*.

We imagine that the man who originated the saying: "As smart as a steel trap," knew that a steel trap knows when to shut up.

The Sultan of Turkey is dead. His soul will probably find a fit companion in the other world, when the Kaiser shuffles off.

A man called on us yesterday morning and offered to explain the situation in Russia. As we had had an engagement for a meal ten hours later we respectfully declined to lend an ear.—*Winnipeg Free Press*.

Frightfulness in Los Angeles
From the Los Angeles Times we clip this account of an inhuman horror that has been going on unchecked until now, right under our very noses, as it were. Listen:
"The Humane Animal Commission, (By the way what's a humane animal?) wants the council to adopt an ordinance prohibiting dogs from riding on the fenders of automobiles. It is contended that the dogs suffer because of getting cinders and other things in their eyes, and that nerve shock often follows."
—*Winnipeg Free Press*

HEAVY CUTS ON LIGHT CATTLE

W. F. Stevens, live stock commissioner of the Department of Agriculture, Edmonton, sends out the following circular:

It is reported that at a meeting composed of representatives of the packing interests, the British purchasing agent and the food control board, it was decided that the food situation is such that the slaughter of immature and unfinished cattle should be discouraged in every way possible.

One of the means adopted, and the one that hits back at the farmer, was the decision by the British Purchasing agent that no carcasses will be accepted that weigh less than 500 pounds. That act limits the sale of light and unfinished cattle to the local market, and is very likely to result in a heavy cut of cattle of that class.

It is not too late for the farmer whose pasture is short to protect himself against loss. If he has a piece of summerfallow land or of breaking and his district has been favored with a good rain, he can sow dwarf Essex rape or white turnips during the first half of July and pasture them off during the last half of September and the month of October. By so doing, many an animal can be brought to the required weight and increased in price as well.

The heavy weights and high prices bring the large returns, while the light weights and heavy cuts in price destroy profits.

FOR GOOD MEASURE

I suppose her father gave the bride away.
Not exactly. He gave a million away and threw her in.

LOAN MACHINE SHOP

Edmonton.—The public school board voted to loan its technical machine shop and machinery to the Western Shells and Box Co., Ltd., which has secured a contract to manufacture 85,000 anti-aircraft shells for the United States government.

"Is THIS the best we can DO?"

BUSHEL WHEAT IN PERSIA \$30

EIGHT MORE WHITS OF

HABEAS CORPUS ASKED

Commerce and industry in Persia have been completely paralyzed by the war. Typhoid and typhus have become endemic, and the number of deaths has reached a total ten times the normal rate. Tens of thousands of homes have been stripped of everything, carpets, bedding, cooking utensils and clothes. The approaching harvest is expected to be a good one and food prices are now falling. Wheat has been selling for \$30 a bushel, rice at fifty cents a pound and sugar at \$1.10 a pound. Kerosene costs \$2 a gallon.

Calgary, July 5.—Eight applications of soldiers for habeas corpus were presented to Mr. Justice Stewart Friday. The cases were adjourned until next Monday. The applications were made as a result of the Earl Lewis decision. The applicants were Cecil Richard Madge, G. P. Davis, Charles J. Brown, Cyril O. Elliott, E. Christianson, R. D. Michelson, W. J. E. Rowat and C. H. Christianson.

The judge instructed that these men not be removed from the province until the case was decided, but commented that if the local military got orders from their military superiors to send the men away they would have to obey, and he would not consider their disobedience to his order under this circumstance as discourtesy. Other applications are being made.

LOCAL PARAGRAPHS

Mrs. Sorel has gone to the city.

Mrs. Wilcox has gone to Edmonton where she will buy her fall stock of millinery.

Miss Pearl McDowell is visiting in Edmonton and also taking in the exhibition.

CASEY- Born to Mr. and Mrs. Casey at the Wainwright hospital, on June 2, a daughter.

Miss Vera Limpert is teaching school at Kitscoty, Alberta.

Miss Josie Reid of Dolcy, is visiting friends in town.

Miss Christina Dea who has been assisting at A. C. Armstrong's store returned to her home in Edmonton.

Mrs. Hoskins and family have gone to Edmonton for the summer months.

Miss Martha Dalgren has accepted a school at Horseshoe, Alberta.

Miss Faith Douglas has accepted a postula teaching school at Horse Lake, Alberta.

Jerry and Patsy Fieldhouse are here to spend the school holidays with their parents. They have been attending school at Neepawa, Man.

Among the Edmonton fair visitors are: Mrs. Coleman and family, Mr. and Mrs. Plaxton and son Howard, Mrs. Pecknold and daughters, Mable and Beatrice. There will be a large crowd take in the special train on Wednesday.

Mr. and Mrs. S. D. Mills, and Mr. and Mrs. Bob Simmerman motored to Edmonton to take in the fair.

Several of the buildings on main street are being decked out in a new coat of paint. The office of Drs. Little and Middleton and the Wainwright Realty Building are much improved in appearance.

A. A. Leonard, who is at present in the employ of John Hedlund, working on a steam plowing outfit reports that considerable breaking is being done in the Gilt Edge district.

Stuart and Peterson shipped a car of fat cattle and hogs to Edmonton last night.

Mr. Lydabur, of Edmonton has taken a position as meat cutter with the Model Meat market.

Bob Schofield spent Sunday with his parents.

Rev. Wilson is visiting his parish at Heath and district this week. He will be back on Saturday.

Mrs. Russell Smith is visiting her parents at Edmonton.

Miss Florence Smith has joined the Star staff as bookkeeper.

Miss McAllister, and Miss B. Parsons, teachers in the public school here, have gone home to Edmonton where they will spend the school holidays.

At the vestry meeting of St. Thomas church of England, held on Thursday, July 4 it was unanimously decided to hold the annual congregational and Sunday School picnic on Wednesday, August 29th, at Clear Lake.

By means of the good work of Mrs. Laseil and her girl workers, a church bell has been ordered for the tower of St. Thomas church, to be erected in memoriam of all those who have joined for military service from this town and district.

J. T. Peterson of Heath will leave this week for Buras Lake, B. C. where he will arrange for permanent residence, as he will move his family out to B. C. in the fall. He has disposed of his farm here to Mr. Stanislau.

Mr. Thomas Schultz and family, a prosperous farmer from the Rylee district were visiting at the home of Mr. Letorneau of the Merchants' bank, last week. He reports crops there in fine condition, as they have had plenty of moisture.

Mrs. MacQueen and family left Friday for an extended visit to Saskatchewan.

A meeting will be held in the Council chambers on Thursday evening at 8 o'clock in the interests of forming a troop of boy scouts or cadets. All boys from 13 years up are asked to attend. Rev. Mr. Priestley will have charge of the meeting. He is keenly interested in the welfare of boys, and is thoroughly experienced in all kinds of physical culture work and boys' clubs.

George Wanless has entered business for himself, having bought out the Wainwright barn. He will conduct an up-to-date livery and feed barn, and also an auctioneering business. Sales will be held in town at stated dates, and any one wishing to dispose of any article, list it with him. The first sale will take place the first Saturday in August. All wishing to list goods with him should do so some time in advance of sale.

On Friday the Loyal Orangemen of Wainwright Lodge No. 2535 together with the Gilt Edge Lodge, will journey via automobiles to the big celebration to be held at Irma. A big program is arranged in that town and a good time is expected by all who attend. The file and drum bands will be in evidence and King E. by on his white horse will lead the procession. Cars will leave Wainwright around eight o'clock.

Mr. Welch, of the Alaska Lumber Co., thinks that Wainwright is a favored district this year, as nearly all their yards in Southern Alberta and Western Saskatchewan report a crop failure, many of the farmers summer-fallowing land seeded this spring and prospects for hay very poor.

A masquerade dance will be held in the Elite Theatre on Wednesday, July 19th. Good music is promised.

The annual sermon of the Gilt Edge Loyal Orange lodge will be preached on Sunday, July 14th at 7.30 in the Orange Hall by Rev. Bro. E. H. Maddocks. The public are invited to attend.

R. C. CHURCH HOLD A SUCCESSFUL PICNIC

The Catholic picnic held last week at Mr. A. Normandin's farm on House Lake was enjoyed by a very large crowd from Wainwright, Heath and Chauvin.

The sports under the direction of Wm. Goulet and Mr. Mitchell were a great success and enjoyed by all. Refreshments were in charge of the Ladies' society and served noon and evening, and a neat sum realized at the booths.

Father LeMair and the management wish to thank Mr. Normandin for the use of the grounds, Mr. Lee Wells and Mr. Charles Morrisette for the use of a number of boats, and Mr. A. C. Armstrong, Mr. R. A. Snyder and Mr. Fred Gordon for prizes and other assistance donated.

ANSCO CAMERAS

For the young folks, there is no camera to beat No. 2 BUSTER BROWN. It costs only \$2.00, but makes fine pictures and will stand hard knocks. So simple and efficient that any one can learn to make excellent "snap-shots."

We have larger Buster Browns at \$3, \$4 and \$5, also other AnSCO Cameras, Speedex Film and Cyko Paper.

HEALTH TIPS

J. W. MacQueen D.D.S.

An interesting article appeared in "Physical Culture" for June and July by A. H. W. McCann, scientific food expert and reporter of the New York Globe. A certain ship, the Kronprinz Wilhelm, which now transports American soldiers to France, and which previous to her capture had plundered and sunk fourteen British and French vessels, sought shelter in a port on the eastern American coast. No one was allowed to board her, except certain celebrated physicians who had a consultation on the disease with which the crew were afflicted, known as "beriberi" and characterized by such symptoms as anæmia, dropsy and paralysis. This disease has always been associated with a diet of polished rice, and McCann was anxious to get aboard, but could not gain admission so he finally resorted to the dangerous expedient of presenting the card of a noted New York physician, thinking no one would know him there. He was disappointed in this for just as he was being greeted in the name of this physician whom he impersonated, a health officer who knew him and who was one of the consulting physicians admitted to the ship called out in what sounded to McCann a very loud voice, "Why here is McCann of the New York Globe," and then introduced him to the ship's physician including the ship's physician. He was then asked for an explanation of the card which he presented, and he gave it in so convincing and emphatic a manner that the ship's physician took him to his private office and after going over the history of the disease he was asked to prescribe for the afflicted sailors. The cause was laid to the diet of white bread, meat potatoes and canned goods, in which there was almost a total lack of mineral salts necessary to the healthy nourishment of the body. The crew had saved all these articles from the plundered ship and the wheat whose bran and other cast off parts contained the very substance required, was sunk with the ship. This would have

been a great loss to the men but they did not know it. Man is supposed to be an intelligent animal. The lower animals know by instinct. Intuition is to man what instinct is to the lower animals, it gives us natural knowledge, but we have ignored intuition so much that it has almost entirely ceased to act, so we have to depend on acquired knowledge and consequently we find man sometimes hasn't the intelligence of a monkey, a cow, or even a fowl. A flower remains out in the rain and all the dust is washed from its leaves and petals; man seeks shelter from the rain and some men's bodies have never seen a bath since babyhood. Flower knows how to choose from mother earth just what materials as will make it grow strong and beautiful and to reject what would be useless or injurious to its growth and man; but man often makes a mistake in this matter and chooses wheat and tobacco instead of meat and potatoes or rejects some of the best part of the wheat which his body needs, in order that he may have a whiter though less nutritious loaf. Consider the lilies of the field.

A cow eats when she is hungry and then lies down and chews her food again in order that she may further prepare it for easy digestion; a man eats not when he is hungry, but when the time comes and instead of masticating it thoroughly, he washes it down with poisonous and injurious liquids, thus causing extra labor for the abused and over-loaded stomach. Consider the cattle.

EXEMPTION BOARD SITTING

The following appeared before the exemption board at Edmonton recently and their claims dated with:

John H. Cochrane, Hughenden, disallowed.

Henry Ostrom, farmer, Gwynn, to November 1.

Peter G. Wallgren, farmer, Edmonton, to November 1.

Richard Myseveld, farmer, Chauvin, to November 1.

John H. Higginson, farmer, Chauvin, to November 1.

Henry Stevens, farmer, Chauvin, to November 1.

William Nestvold, farmer, Chauvin, to November 1.

Norman P. Strachan, farmer, Chauvin, to November 1.

Don't forget the big "Get Acquainted" of the Board of Trade next Wednesday week. Every one should join the procession and show your good will toward the country people.

PUBLIC NOTICE

The Barbers of Wainwright have decided that on and after July 15th, 1918 the price of haircuts will be raised to 50 cents. Children's haircut 35c as before with the exception of Saturday, when 50 cents will be charged.

Don't forget the big "Get Acquainted" of the Board of Trade next Wednesday week. Every one should join the procession and show your good will toward the country people.

HOSPITAL SCHEME

Continued from front page.

The municipalities under the direction of the minister of public health are the larger centre hospital and the smaller cottage hospital. The act only provides for a maximum amount of taxation of one cent per acre on the land included within any hospital area. If the hospital area is only large enough in the opinion of the minister, to support a cottage hospital, the department will not permit the building of a larger one than the revenue to be derived from the taxation of the area will warrant. The cottage hospital can only consist of about eight or nine beds, and a very limited accommodation is the result. A staff of graduate nurses, day and night superintendent, would have to be employed. The cost of maintenance will nearly always be able to take care of any emergency cases that may arrive. The need of a hospital that can take care of the more serious cases of accidents, etc., is one of the arguments for the larger fully equipped hospital. The more serious the case the more urgent is the need that the patient be placed immediately in a hospital where skilled nurses may look after him and where operating and X-ray facilities are at hand. The idea that all the more serious cases should go to the Edmonton hospitals is wrong, for the simple reason that if any one is seriously injured just after the train has left he would probably die by the time that you waited for the next train at 5 o'clock the next day, to say nothing of the length of the journey and the polling of a long train ride.

If a larger hospital is built it will take care of the more serious cases and will be placed in charge, a day and night superintendent, and that any girl who takes up the profession of nursing could place her application to the hospital board here, and could take up her course of training. This fact would make a great difference in the cost of maintenance, as much of the work could be done by probationers, which otherwise would have to be done by high-salaried graduate nurses.

The financial end of any enterprise is one which determines its success. If we have the larger area, with a minimum amount of taxation it will positively assure the success of the hospital from a financial view point. In determining the revenue from a smaller area one is liable to be misled by the supposition that a certain area could be raised from a stated area. Any one who has had anything to do with the collection of taxes knows full well that such a thing as a fully paid up tax assessment is a rarity. From twenty to thirty per cent of all taxes are nearly always in arrears. This fact would considerably embarrass a hospital board who had based their expenditures on the total amount that should be raised every year. With the larger area the tax rate can be adjusted to allow for arrears, and make financing an easy matter. Any enterprise that is compelled to pay large amounts in interest charges is not on the way to success.

In reviewing this question bear in mind that both the department of public health and the people of Wainwright are desirous of placing the hospital in a place where it will serve the most people at the minimum of expense with the best satisfaction to everybody. When the lives of our people are in jeopardy, there should be no hesitation in erecting the best hospital with the most capable assistants that can be secured, and such will only be the case provided that a large hospital is erected.

DROPS DEAD IN OFFICE

Stratford, Ont., July 5.—George McLagan, head of the George McLagan Furniture company, and father of Stratford's beautiful park system, dropped dead at the office of the company this morning.

He was 44 years of age, and had been actively connected with the board of trade and patriotic work in the city.

GIRL GUIDES

Edited by Rev. Henry Wilson, M.A., Dublin University and Vicar of St. Thomas Church, Wainwright

ARTICLE IV.

When a girl first wishes to join the "Guides," she sends her application to the captain of a duly registered and fully organized company.

After receiving the written consent of her parents or guardian, she is placed in the "tenderfoot" class.

In this class she is taken in hand by the senior patrol leader, and fully instructed in the initial stages of the movement.

This occupies from four to six weeks, and sometimes more, much depending upon the girl herself, as well as the vacancies in the various patrols.

This is the most difficult period in the advancement of the girl, as some girls do not take over-kindly to the discipline, obedience and punctuality demanded.

The Senior Patrol Leader having gone through the girl, she fully understands what it means and treats the aspirant to the "guides" with much sympathy and kindness.

Yet she will have discipline and obedience at any cost, which often ends in tears and a weeding out process. Still I have always found that girls who left this class at this stage, almost invariably returned at a later date, and in less than six months time became first class guides. We never lose faith in what some people call the "impossible" girl, the girl that is talked about by that superior class of individual one finds in every community. My experience has been that that is just the girl that has generally fine traits of character that only need development among right lines, and the "Girl Guide" is just the place where all her wild and untutored spirits are brought into subjection and placed under wise control.

I may say that it has been proved that seventy per cent of our girls in the "Guide" movement turn out to be reliable and trustworthy women whose influence for all that is good cannot be overestimated.

That alone justifies its existence. If out of every ten girls we can send forth seven really good and furnished with high attainments, while we regret the three failures, we do not lament as if our grief was unconsolable. The Christian churches all rolled into one, could not, nor do not produce such a high per centage as this.

The churches are so full of "natives" and restrictions of a more modern and Puritan age, that the young and the happy are much more inclined to stay outside their borders.

The farmer as he sows his fields in the spring, knows perfectly well that a certain percentage of that seed will be lost, but that does not prevent him from continuing the process each year. He is quite content with a certain percentage of crop.

And so in the "Girl Guides" or the "Boy Scouts" we plod along year by year happy in the certainty that if we lose three we save seven.

Well when the girl has gone through the drudgery of the "tenderfoot" class, and some hazy ideas of the movement are just beginning to dawn in her soul, she presents herself for examination before the Senior Patrol Leader of either her own or some sister company.

She undergoes a written and viva voce examination and if she passes her name is sent in writing to the captain who in turn sends it to the chief commissioner.

The chief commissioner sends it on to Canadian headquarters, who sends it to London, England, where she is finally registered.

In course of time she receives a very pretty registration card, with her name neatly engraved and signed by the Governor General of the Dominion and Miss Agnes Baden Powell.

This card is highly valued by the girl, shown with much pride to her friends, and is generally framed and hung upon her own room.

The next step is the ceremony of her enrolment, which forms one of the landmarks in her life.

To this, I will not refer in this present article. It is an exceedingly pretty ceremony, not very easy to adequately express in words. To be fully understood it should be seen and once seen it is not likely to be forgotten.

HOW HE GOT EVEN

Willis—Did you plant a garden this year?

Gillis—Yes. Then the fellow next door decided to keep chickens.

Willis—What did you do?

Gillis—I bought the lot on the other side of him and I'm going to raise chicken hawks—Life.

PRICE OF WHEAT IN CANADA NOT TO BE INCREASED

UNFOUNDED IN THE WORK- ING HARVESTING SEASONS

—DR. M. M. GILLES

Winnipeg, July 1.

A statement which was published yesterday was credited to A. E. Philip of the Western

Canada food board, to the effect that

the price of wheat was not to be raised to

\$2.50 in consequence of the new

price set in the United States, was

absolutely denied by Dr. M. M. Gilles,

chairman of the board of grain commis-

sioners, this afternoon.

"There is no truth in the reported

statement whatever," he said, "and

such a report being sent out only

works hardship on those who are try-

ing to get the wheat out of the coun-

try to England.

"The increased price in the United

States is made only to offset the in-

creased freight rates in that country

which are already in force. In Can-

ada the matter has not yet been con-

sidered and will not be unless the

one extra cent in the pockets of the farmers, as any raise would be made only to meet the increased freight rates."

GOVERNMENT TO HELP CONSERVE LIVE STOCK

The Hon. Duncan Marshall, announced during the Calgary Fair that

in view of the serious shortage of feed

for cattle and sheep in parts of the

province, that his department was

undertaking an active campaign of

enquiry as to methods of relieving the

situation, and preventing anything in

the shape of undue liquidation of live

stock.

The agricultural representatives of

the department in the areas that are

suffering from drought, are visiting

the stockmen to find out what they

wish. What the department wants is

specific information as to just what

is wanted.

If the owner of live stock is prepared

to arrange for the cutting and putting

up of hay, the department will en-

deavour to locate hay land for him. If

he wishes to move his live stock, pas-

ture that will carry more stock than

is at present on them, and if this in-

formation is communicated to the

Agricultural Representative in this

district, H. W. Scott, Sedgewick, he

will act as a medium for gathering

and forwarding the information to

the department.

STUART & PETERSON
PHONE 33 MAIN STREET

WILL GO IN FOR FOX RANCHING

Mr. H. J. Morrison, who recently sold his grocery business on Second Avenue, has taken up a new industry in Alberta. He has purchased a farm at Spruce Grove, near Edmonton and will devote his time to black fox breeding, and also cattle raising. The following clipping a magazine devoted to fox culture explains his idea.

Mr. H. J. Morrison, now of Wainwright, Alberta, will in the near future devote his time to fox and stock raising in this province. He has purchased a large tract of land near Edmonton, which is now stocked with a herd of pedigreed Galloway cattle. In addition to this Mr. Morrison will install a modern fox ranch with not less than eighteen pairs of P. E. Island best standard bred, silver and black foxes. Mr. Morrison has been in mercantile business for many years in Manitoba, where he has been very successful and using his words he has said "looking into the future I can readily see that the soil demands all the man-power available, therefore I aim to drop active business life and enter with the 'S. O. S.' battalion."

Mr. Morrison is no amateur in the fox industry, as he had been more or less engaged in the business for years. In boom fox days he was a buyer of five animals in Alaska and Northern B. C. and understands the care and habits of foxes as well as the grading of furs.

Mr. Morrison has 12 pairs of the outcrossed black foxes now on the way to Edmonton from the east.

THREE BILLION BILL SIGNED BY WILSON

Washington, July 5.—President Wilson has signed the three billion dollar supply civil appropriation bill providing for government expenses, including the shipbuilding of the coming year, and the naval appropriation bill, carrying \$1,600,325,000 and authorizing a permanent increase of the navy's enlisted personnel to 131,000 men, with 50,000 additional for the war.

Morning 11 o'clock. After 3 o'clock Sunday School, with 12:30. Rev. K. F. Erisley, B.A. will preach at both services. A cordial invitation is extended to all.

SCHOOL MEETING JUNE 15
Don't forget the meeting in the council chambers on Saturday, for the purpose of discussing the consolidation of schools in this district. Mr. Barrow of Edmonton will be the speaker.

GOOD SAMPLE SPRING WHEAT

Guy Smith of Sligo district brought in to the Star office on Monday a fine sample of Marquis wheat. It measured thirty-six inches in height, and five animals in Alaska and Northern B. C. and understands the care and habits of foxes as well as the grading of furs.

While we were examining the sample, several other farmers from the Heath district happened along. Mr. Mainwaring said he had 15 acres of Red Fife wheat that would equal the sample and Mr. Hunt also stated that he had 40 acres that was very good. The Heath district has many splendid fields and a crop of probably 20 to 25 bushels to the acre is expected from the farmers there.

TAKES ON NEW AGENCY

Mr. Dugas has taken on the agency for the Ashtman-Taylor tractors and threshing machines. This tractor is one of the heavier type and is meant to do work that the smaller ones will not do. The one on view now is a 25-50 and certainly appears to be an excellent machine. The water cooling system is one that will compare favorably with any make on the market and in simplicity and ease of manipulation, it is hard to beat, one lever being used for both reverse and forward and throttle controlling speed is similar to that of any automobile. It will pull three 24-inch breakers through anything, so it is claimed.

Registered at the King George hotel from Wainwright this week: Mr. Fieldhouse and wife; Pte. C. Tennant and brother, George E. Hallett, J. Bates, N. Davidson, Mrs. M. Johnston, J. Manfield, C. Jonason, M. Jonason, C. J. Anderson, Rose Daugnon, Mr. Wigley and T. Dancy and wife, Edgerton.

COAL

WE WANT TO TALK TO YOU ABOUT YOUR COAL SUPPLIES FOR Next FALL AND WINTER

Owing to the large demand there will be for WESTERN COAL this year, it is advisable that you get your supply ordered and feel sure that you will be able to get it when needed. If you place your order with us now we will not only guarantee to fill your bins before the cold weather starts but

WE ALSO GUARANTEE TO KEEP YOU SUPPLIED AT ALL TIMES NEXT WINTER WHICH IS A GREAT DEAL MORE TO THE POINT

We are the only coal dealers in Wainwright who had coal at all times last winter and WHEN OTHER COAL DEALERS COULD NOT GET COAL we supplied their customers. The Coal outlook at present points to a scarcity such as we have not known in years, so that we cannot promise to do this next winter but WE WILL HAVE COAL TO SUPPLY OUR OWN CUSTOMERS AT ALL TIMES.

We can do this because we are agents for Three of the most reliable and Best Coal Mines in the west:

HUMBERSTONE TWIN CITY, PEMBINA

1 All Equal in Grade, all at the same price

We have Dry Tamarac in Stove Wood Lengths

Let us have your order now. We will deliver when you want it

LUMBER

We have Seasoned Lumber of all kinds, Douglas Fir, Coast Cedar, B. C. Spruce. If you need strong lumber come in and see our Full Inch Boards and Full Sized Dimension.

IMPERIAL LUMBER CO., LTD.

UNLIMITED SUGAR FOR PRESERVING FRUITS

Unlimited quantities of sugar for preserving purposes. Consumer, you may now give way to wild abandon, order up even two hundred pounds or more, and you need not fear the hoarder's act.

Wholesale dealers can now sell sugar in car lots to retail dealers. Re-

tail dealers also are allowed to sell the sugar in unlimited quantities to consumers for preserving purposes. This order is no repeal of hoarder's act, but allows the purchase of all sugar necessary for canning and preserving purposes. The new order has been issued to western Canada wholesale dealers granting permission to sell sugar by the car lot to retail merchants.
